**ISSUE RESOLVED-P3- #743907**

**START TIME** TUES JAN 29<sup>TH</sup>, 2025 2130hrs

**END TIME** WED JAN 30<sup>TH</sup>, 2025 1133hrs

**TOTAL TIME** 14H 3M

**RESOLUTION AND ROOT CAUSE PER THE OIT NETWORK TEAM:**

According to NETWORK INTE, there was an intermittent issue with the circuit breaker which was resolved after it was discovered that, the ROOT CAUSE was a diaper from the river, and it got stuck in some sort of equipment, and it kept tripping the breaker.

**ITCC: Keeping you informed.**

FCC informed ITCC that Marine Unit 2 (3144 Passyunk Av) is having power issues due to problems with the main circuit breakers. The site is currently running on generator power. Public Property has been informed.
